

Lakshman PV

Founder & Partner, Stacia Corp | COO, Sastem Global |

Multifaceted Innovator | Tech Visionary | Entrepreneur

About

Lakshman PV is the visionary founder and driving force behind Stacia Corp and SASTEM Global, each focusing on different technological sectors. At Stacia Corp, Lakshman pioneers mechanical engineering innovations, developing advanced machines and systems to transform industries, while also leading the company as a central R&D hub for innovation. Stacia Corp empowers advancements in AI, machine learning, and data science through its internal brand, Stacia Tech, driving future-ready technologies. At SASTEM Global, Lakshman guides the creation of smart consumer electronics, seamlessly integrating cutting-edge technology into everyday life.

Lakshman's leadership is built on his passion for creating impactful, purpose-driven innovations that address the technological needs of today while anticipating the demands of tomorrow. His work spans mechanical engineering, electronics, AI, and data science, with a goal of making technological advancements accessible to all and contributing to India's growth as a global hub for innovation.

Lakshman is deeply passionate about contributing to India's innovation landscape, creating technologies that are accessible, sustainable, and transformative for all. He envisions a future where technological advancements are driven by purpose and societal need.

Background

Lakshman holds a degree in Mechanical Engineering from Sri Venkateswara College of Engineering (SVCE), along with a Post Graduate Diploma in Data Science from Great Lakes Institute of Management and certifications in Business Analytics from the University of Texas, Austin. His diverse expertise enables him to bridge engineering, strategy, and execution, turning visionary ideas into tangible innovations.

Awards & Achievements

- Best Entrepreneur Award – Recognized by Nitin Gadkari for contributions to innovation
- Top 30 Innovations – RKVY Raftaar Program for Micro Seed Sowing Machine
- Published Research – Optimization of Fuel in Diesel Engines (IJSIET, May 2018)
- Over 6 Patents – Focused on cutting-edge technological innovations
- FMEA Competition – 2nd Place for Engine Inspection System Failure Analysis

Quote by Lakshman PV

"Innovation is not just about creating new technologies; it's about making them accessible to everyone, improving lives, and driving a future where progress is shared by all."
