

Sarabesh Sriram

Founder & Partner, Stacia Corp | CEO, Sastem Global

Multipotentialite | Entrepreneur of the Year 2024 | Innovator

About

Sarabesh Sriram is the visionary founder and strategic mind behind **Stacia Corp**, an innovation-led R&D powerhouse transforming the future of agriculture, energy, food systems, and smart consumer technologies. As a Founding Partner, he bridges deep-tech engineering with purposeful innovation, ensuring every project at Stacia not only solves present-day problems but anticipates the needs of tomorrow. His leadership fuels a culture of invention, impact, and continuous evolution.

Also, at the helm of **Sastem Global**, a consumer electronics brand crafting seamless connected experiences, Sarabesh balances entrepreneurial agility with a future-forward mindset. He leads with a rare blend of curiosity, compassion, and technical excellence, building pathways where others see only roadblocks.

With a passion for innovation and a deep-rooted belief in the power of technology to reshape industries, Sarabesh has built companies that don't just keep pace with the future—they create it. His work spans from precision agriculture and IoT systems to smart consumer products and AI-driven software platforms, always rooted in purpose and designed for impact.

Background

Sarabesh holds a **Mechanical Engineering** degree from the **Sri Venkateshwara College of Engineering (SVCE)**. He further specialized with a **Post Graduate Diploma in Data Science** from the **Great Lakes Institute of Management** and a certification in **Business Analytics** from the **University of Texas, Austin**.

His interdisciplinary expertise enables him to bridge the gap between hardware and software, strategy and execution, vision and results. With a unique ability to convert abstract ideas into tangible innovation, Sarabesh continues to shape a future where technology meets humanity with intent.
